Aeronautics in the US at the Signing of the Armistice, November 11, 1918 - An Address before the American Institute of Electrical Engineers (WWI Centenary Series) George Owen Squier
This historical document details the contemporary state of various aspects of aviation engineering at the time of the Armistice of 1918. It includes information on aircraft production, the Liberty Aircraft Engine, radio communications, and much more, and is a wonderful work for anyone interested in military aviation. This book is part of the World War One Centenary series; creating, collating and reprinting new and old works of poetry, fiction, autobiography and analysis. The series forms a commemorative tribute to mark the passing of one of the world's bloodiest wars, offering new perspectives on this tragic yet fascinating period of human history. Each publication also includes brand new introductory essays and a timeline to help the reader place the work in its historical context.
