Demonology 2 Course In Differentiating Medical Illness From Spiritual Possession: For Paranormal Investigators (Demonology Courses For Paranormal Investigators, By Dr. Lynne Campbell) (Volume 2) Dr. Lynne Campbell
Demonology II: A Course In Differentiating Between Medical Illness and Spiritual Possession, By Dr. Lynne Campbell As the second volume in my Demonology courses, Demonology II contains 16 Modules, with a Bonus Module at the end. As before, you complete it at your own pace. This course is for Professional Paranormal Investigators, to help them to understand various physical, and emotional illnesses that may closely mimic Possession, depending upon their severity. By becoming familiar with the most common symptoms of these illnesses and contrasting them with the Symptoms Of Possession, as well as the Symptoms Of Oppression, Paranormal Investigators will become more aware of the very specific differences. They will also gain a fundamental knowledge which will help them to communicate more effectively with doctors and others in the healthcare field who may already be involved in a client's case. This course book was written with the utmost respect for all people who suffer with the illnesses, conditions, and disorders contained herein. While true cases of Possession are rare for most of us, we still need to have a well-rounded knowledge of both Possession and Medical Illnesses that have overlapping symptoms. This course will not make you a doctor, nor a diagnostician, however, it will give you knowledge, and knowledge is power. When we work wiser, we work safer. We can certainly benefit from all of the wisdom we can get in the best interest of our clients, and our research in this field. This course is NOT meant to Debunk Possession, NOR is is meant to Debunk Medical Illness, it is simply meant to COMPARE THEM. There is little homework in contrast to my first course: "A Course In Demonology For Paranormal Investigators" (2015), as the reading, and re-reading to retain all of the information presented is your primary task. There is no Final Exam, as you are encouraged to discuss each module with your colleagues and team-mates for further elaboration and retention of the course. Your exam is to discuss. You will know from such discussions if you require further review, and that is how you will gauge your progress and your understanding of the material at the end of the course. The Bonus Module is on Spontaneous Human Combustion. If it's in this course book, you know why. Finally, this course was written for my team, my other colleagues and friends, who have been called to battle the darkness.
