Flatland [illustrated] Edwin A. Abbott
illustrated: contains original illustrations by the author
Original Title: Flatland - A Romance Of Many Dimensions

is an 1884 satirical novella by the English schoolmaster Edwin Abbott Abbott. Writing pseudonymously as "a Square", Abbott used the fictional two-dimensional world of Flatland to offer pointed observations on the social hierarchy of Victorian culture. However, the novella's more enduring contribution is its examination of dimensions, for which the novella is still popular amongst mathematics, physics, and computer science students.
