Innovation-Oriented Environmental Regulation: Theoretical Approaches and Empirical Analysis (ZEW Economic Studies)

Innovation-Oriented Environmental Regulation: Theoretical Approaches and Empirical Analysis (ZEW Economic Studies)

Innovation-oriented environmental regulation is extremely attractive for policy planners and decision makers, since it is expected that innovations can cut costs of environmental measures and overcome existing trade-offs between economic and ecological goals. The central question is, however, how such a regulatory regime of environmental policy approaches should look like. This book provides an excellent overview of the state of research by presenting and discussing theoretical approaches towards a framework of environmental regulation and innovation, international case studies as well as econometric and modelling studies from Europe and the Usa.
