Global Information Society: Technology, Knowledge, and Mobility (Human Geography in the Twenty-First Century: Issues and Applications)

Mark I. Wilson, Aharon Kellerman, Kenneth E. Corey

Global Information Society: Technology, Knowledge, and Mobility (Human Geography in the Twenty-First Century: Issues and Applications) Mark I. Wilson, Aharon Kellerman, Kenneth E. Corey This unique and empowering text offers a comprehensive, global perspective on the information society from a broad social science perspective. The authors, at the forefront of this dynamic field, provide an interdisciplinary introduction to the three pillars of the information society-technology, knowledge, and mobility-and to the global information society as a whole, both as an interconnected web and a regionally distinct phenomenon. Offering a nuanced understanding of this complex subject, this book will enable students to navigate and thrive in the dynamic and evolving world of information and communication technology.
