Math for Nurses: A Problem Solving Approach Sally Irene Lipsey, Donna D. Ignatavicius
This book presents dosage calculation and other mathematics problems faced by nursing students. It follows a problem-solving method which parallels the nursing process and provides students with a practical guide for solving all kinds of basic maths problems. Features include a comprehensive review of basic maths principles; ratio and proportion method of dosage calculation; nearly 2000 exercises, with answers to odd-numbered questions given in text; pre-test and post-test for each chapter; the essentials of medication administration and documentation; and an easy-to-learn four step problem-solving method.
