This publication lists all articles, editorials, and short commentaries from the first 10 volumes of “Airpower Journal (1987-1996)” in author, title, and subject indexes. The subject index – divided into 135 categories – also includes book reviews, listed alphabetically by name of the book’s author. The other categories of the subject index list entries alphabetically by title. A typical entry includes the author’s name, title of the article/editorial/commentary, volume number, issue number, date of issue and inclusive page numbers. Articles, editorials, and commentaries may be cross-referenced in as many as five different categories. We used our best judgment in assigning entries to subject categories, although– in the spirit of both inclusiveness and usefulness- we have deliberately placed entries in categories that may be only marginally appropriate. We have retained most of the category titles used in the “Airpower Journal Index, 1987-1991” but have added 24 new categories that reflect such changes as the demise of the Soviet Union and the return of Russia, the emergence of information warfare, and the revolution in military affairs.
